WORK HISTORY

ProgmaticWebLLC - Full-steck Developer
Windermere, FL • 05/2024 - 08/2025

- Developed custom APIs in **Python** to connect a crypto wallet with Benzuber, a gas payment platform, enabling secure crypto transactions.
- Integrated **Telegram Bot API**, **Waves Exchange**, and **JWT auth** for seamless user registration and wallet access via Telegram.
- Built a responsive front-end using **Next.js** and **Bootstrap**.
- Deployed the system with **Docker** on a remote server for scalable performance.
- Used **Prisma ORM** and **MySQL** for efficient data handling.
- Managed code with **Bitbucket** and contributed to debugging and testing for system stability.

LANGUAGES

VOLUNTEER WORK

- Organized events for children in orphanages and supported animal shelters with care and logistics.
- Led volunteer operations during FIFA 2018 events, overseeing team coordination and logistics.
